The new antibacterial/antiviral protective sheet protects the GOT screen from scratches and dirt when you operate touch keys, while protecting the operation surface from bacteria and viruses. The clear protective sheet has excellent transparency and does not reduce the brightness of the GOT screen.

Anti-Virus

Reduce the number of specific viruses on the product surface by **99.99%**

Anti-Bacteria

Suppress the growth of bacteria on the product surface to **1/100 or less** compared to no anti-bacterial treatment products

Point

Using the antibacterial/antiviral protective sheet with GOT white models is suitable for applications in the food, pharmaceutical, and cosmetics industries.
