

Version Update of the General-Purpose Inverter Option FR Configurator2 (Inverter Setup Software)

Thank you for your continued patronage of Mitsubishi Electric drive control products.
The general-purpose inverter option FR Configurator2 (inverter setup software) will be updated and new functions added.

1. Details of the Version Upgrade

(1) Addition of supported models

FR-A800 (upgraded in June 2019): Refer to Sales and Service No. 599E.

FR-F800 (upgraded in June 2019): Refer to Sales and Service No. 599E.

(2) Addition of supported options

FR-A8NCG

(3) Support for CC-Link IE TSN communication

The inverter and FR Configurator2 can connect to each other via a programmable controller (CPU module / Ethernet module).

(4) Improvement of the automatic recognition function

Inverters can be detected even when they are connected to a network segment different from the computer's network segment.

(5) Display estimated main circuit capacitor residual life

Estimated residual-life of main circuit capacitor can be displayed by using the life check function.

(6) Protection against vulnerabilities

A security vulnerability has been repaired.

[Details of the vulnerability]

If a modified, malicious project file is read using FR Configurator2, data saved on the computer can be stolen, or FR Configurator2 may lock up.

There is no evidence of malicious programs exploiting this vulnerability.

2. Product Identification

The SERIAL (determined by date of production) can be checked on the DVD-ROM and the packaging label.

I 9 8
Symbol Year Month

SERIAL

The SERIAL consists of one symbol, and two characters indicating the production year and month. The last digit of the production year is indicated as the Year, and the Month is indicated by 1 to 9, X (October), Y (November), or Z (December).

*The SERIAL on the packaging label has additional three characters indicating the control number after the three characters above.

3. Date of Change

The change will be sequentially applied to products manufactured in August 2019 or later.
