

Firmware Upgrade for the FR-A8NCE Inverter Plug-in Option

Thank you for your continued patronage of Mitsubishi Electric drive control products.
The firmware of the FR-A8NCE inverter plug-in option will be upgraded due to the addition of supported inverters.

1. Products Affected

FR-A8NCE

2. Details of the Change

The FR-A8NCE inverter plug-in option will be available for the FR-A800-AWH inverter* (to be released in October 2019).

*Inverter for logistics and transportation

3. Date of Change

The change will be sequentially applied to the products manufactured in November 2019 or later.

4. Product Identification

The FR-A8NCE after the change will have the following SERIAL or later on its circuit board.

□ 9 Y ○○○
Symbol Year Month Control number

SERIAL

The SERIAL consists of one symbol, two characters indicating the production year and month, and three characters indicating the control number.

The last digit of the production year is indicated as the Year, and the Month is indicated by 1 to 9, X (October), Y (November), or Z (December).

5. Restrictions of use

Compatibility depends on the SERIAL number of the FR-A8NCE as shown in the following table.
Check the SERIAL number indicated on the circuit board.

FR-A8NCE SERIAL	Compatibility with FR-A800-AWH
□ 9 X ○○○ or earlier (Manufactured in October 2019 or earlier)	Not compatible (E1 error)
□ 9 Y ○○○ or later (Manufactured in November 2019 or later)	Compatible
