

Appearance Change of the General-Purpose Inverter Option FR-A8TP Vector Control Terminal Block

Thank you for your continued patronage of Mitsubishi Electric drive control products. The appearance of the FR-A8TP Vector control terminal block will be changed.

1. Products Affected

FR-A8TP

2. Details of the Change

Mounted parts and their layout will be changed.
 (The positions of the switches and the jumper connector will not be changed.)
 The change does not affect the quality, performance, or specifications of the products.

3. Date of Change

The change will be sequentially applied to the products manufactured in December 2020 or later.

4. Product Identification

The FR-A8TP after the change will have the following SERIAL or later on its circuit board.

□
0
Z
000
Symbol Year Month Control number

SERIAL

The SERIAL consists of one symbol, two characters indicating the production year and month, and three characters indicating the control number.

The last digit of the production year is indicated as the Year, and the Month is indicated by 1 to 9, X (October), Y (November), or Z (December).
