

ClassNK Approval Termination for the FR-A700/F700P Series General-Purpose Inverters (400 V Class)

Thank you for your continued patronage of Mitsubishi Electric drive control products.
For the FR-A700/F700P series general-purpose inverters (400 V class), the approval obtained from the Nippon Kaiji Kyokai (NK) will be terminated.

1. Products Affected

FR-A740-0.4K to 500K (29 models), FR-F740P-0.75K to 560K (29 models)

* Production of these models has been discontinued.

2. Details of the Change

The products manufactured in October 2010 or later for the models above had been approved as certified inverters by the Nippon Kaiji Kyokai (NK). The approval will be terminated at the end of October 2020, and the products will no longer conform to the standard.

The successor models FR-A800/F800 series (400 V class) conform to the NK standard.
For details, refer to the Sales and Service No. 430E and No. 630E.
