

MITSUBISHI ELECTRIC Inverter

Sales and Service

No. 657E

Appearance Change for the General-Purpose Inverter Option FR-XCL/FR-XCG Reactors

Thank you for your continued patronage of Mitsubishi Electric drive control products.
The appearance of the FR-XCL and FR-XCG reactors will be changed.

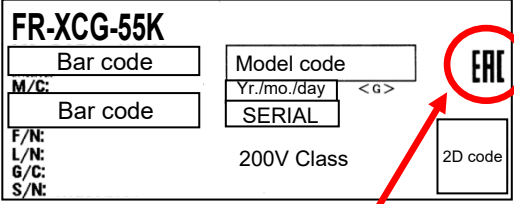

1. Products Affected

FR-XCL and FR-XCG

2. Details of the Change

The standards label and the rating plate will be attached to the product, and the EAC mark will be added on the packaging plate. (The UL, CE, and EAC marks are printed on the standards label, and information such as the rated voltage/current are indicated on the rating plate.) All products have been certified as compliant with the UL, CE, and EAC standards since the beginning of manufacture. The change does not affect the quality, performance, or specifications of the products.

(Example) FR-XCG-55K

	Before	After
Standards label / Rating plate	 <p>Standards label and rating plate not attached</p>	<p>Standards label added (UL, CE, and EAC marks printed)</p>  <p>Rating plate added (indicating the rated voltage/current, etc.)</p>
Packaging plate	 <p>EAC mark not applied</p>	 <p>EAC mark added</p>

3. Date of Change

The change will be sequentially applied to the products manufactured in December 2020 or later.

4. Product Identification

The products can be identified visually.
