Change to the Packaging of the FR-E800 Series General-Purpose Inverters

Thank you for your continued patronage of Mitsubishi Electric drive control products. For the FR-E800 series general-purpose inverters, four types of packaging will coexist.

1. Products Affected

FR-E820-0008(0.1K) to 0175(3.7K), FR-E840-0016(0.4K) to 0095(3.7K),
FR-E820S-0008(0.1K) to 0110(2.2K), FR-E860-0017(0.75K) to 0040(2.2K)

2. Details of Change

The products will be packed in either one of the four types of packaging boxes. Refer to the following table for the combinations of the box appearance, the print, and the packaging. The addition of packaging types does not affect the quality, performance, or specifications of the products.

	Type 1 (current packaging)	Type 2 (added)	Type 3 (added)	Type 4 (added)
Box appearance	Type A	Type B	Type A	Type B
Print	Type A	Type B	Type B	Type B
Packaging of product	Bottomed plastic bag	Bottomless plastic bag	Bottomed plastic bag	Bottomed plastic bag

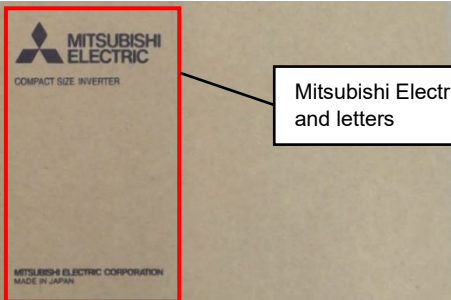

(1) Appearance of the box

Type A	Type B
 <p>The box is closed by inserting the top surface lid.</p>	 <p>The box has four flaps*. The box is closed by folding the flaps and sealing the outer flaps (the longer flaps) with tape.</p> <p>* Lid parts of the cardboard box</p>

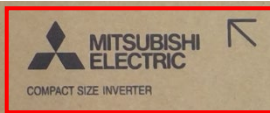

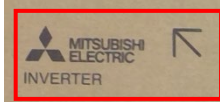

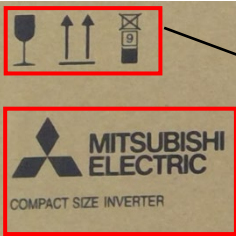

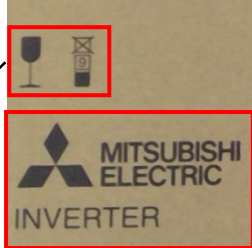

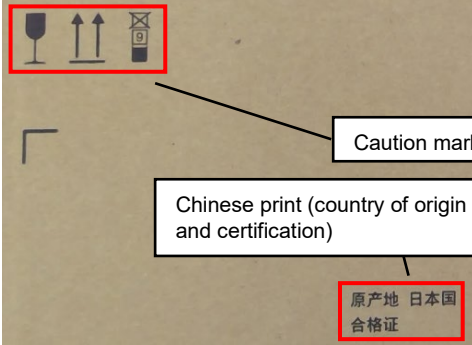

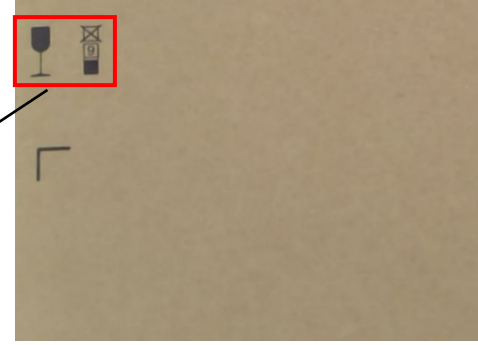

(2) Print

The differences between type A and type B are as follows:

- | | |
|---------------------------------------------------------------------------------------------------------------------|-----------------------------------|
| 1) Mitsubishi Electric logo size and letters | 4) Caution marks |
| 2) Position of the Chinese print (country of origin and certification) required by the Product Quality Law of China | 5) Position of the package number |
| 3) Position of the arrow indicating the shipping label position | 6) Recycle marks |

	Type A	Type B
Front	 <p>Mitsubishi Electric logo size and letters</p>	 <p>Chinese print (country of origin and certification)</p>
