

Stacking Limit Mark on the Packaging Box of the FR-E800 Series General-Purpose Inverters

Thank you for your continued patronage of Mitsubishi Electric drive control products.
The number in the stacking limit mark on the packaging box of the FR-E800 series general-purpose inverters will be corrected.

1. Products Affected

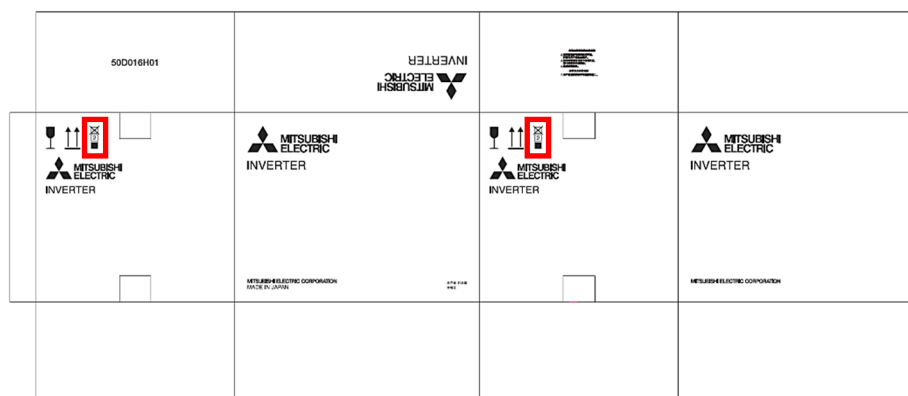

FR-E820-11K to 22K, FR-E840-11K to 22K

2. Number in the Stacking Limit Mark

The number in the stacking limit mark on the packaging box will be corrected from three to six.

* Up to six boxes can be stacked for the applicable models from the first production.

Stacking limit mark positions (enclosed in red in the figure below)

Incorrect	Correct
<p>Indicating that up to two boxes can be stacked on the bottom box (three stacks)</p>	<p>Indicating that up to five boxes can be stacked on the bottom box (six stacks)</p>

* The mark on the packaging box will be corrected for the products manufactured in October 2021 or later.
(The schedule is subject to change.)
