

Version Update of the General-Purpose Inverter Option FR Configurator2 (Inverter Setup Software)

Thank you for your continued patronage of Mitsubishi Electric drive control products.
The general-purpose inverter option FR Configurator2 (inverter setup software) will be updated and new functions will be added.

1. Details of the Version Update

Addition of supported models

The FR-E810W inverters will be supported.

2. Product Identification

The SERIAL (determined by date of production) can be checked on the DVD-ROM and the packaging label.

AF 2 Z
Symbol Year Month

SERIAL

The SERIAL consists of two symbols, and two characters indicating the production year and month. The last digit of the production year is indicated as the Year, and the Month is indicated by 1 to 9, X (October), Y (November), or Z (December).

*The SERIAL on the packaging label has additional three characters indicating the control number after the four characters above.

3. Date of Change

The change will be applied to the products manufactured in December 2022 or later.
