

Change of the UL Certification Mark for the FR-E800 Series Inverters

Thank you for your continued patronage of Mitsubishi Electric drive control products. For the FR-E800 series inverters, the UL certification mark design will be changed from the conventional Listing Mark to the new Enhanced Mark. This is just a design change, and the certified standards do not change. The products meet the UL standards regardless of this change. Along with this change, the layout of the markings (positions of the markings) in the rating plate of the product will be changed.

1. Products Affected

FR-E820/E840/E860-3.7K or lower, FR-E820S-2.2K or lower, FR-E810W-0.75K or lower

* Models indicated with the inverter rated current are also included.

2. Details of Change

The UL certification mark on the rating plate of the product will be changed as shown in the following table.

The change does not affect the quality, performance, or specifications of the products.

(Example) UL certification mark

Before	After
	

Date Of issue	May 2023	Title	Change of the UL Certification Mark for the FR-E800 Series Inverters	Mitsubishi Electric Corp., Nagoya Works 5-1-14 Yada-minami, Higashi-ku, Nagoya 461-8670 Tel.: +81 (52) 721-2111 Main line
