

Notice of addition of UR mark to UL Component Certified products

Since the definition of UL component certification for our magnetic starters has changed from May 15, 2021, UR mark will be added to UL component certified products.

1. Products

(1)Magnetic Starter: MSOD-Q11/Q12, MSOD-QR11/QR12

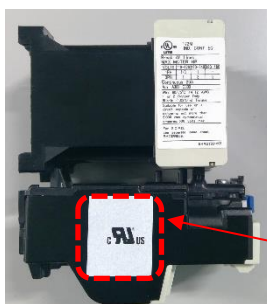

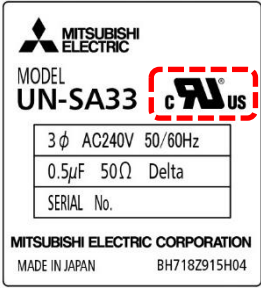

-Note1: The specification changes also apply to some types with suffixes, "BC" and etc. (excluding "KP")

-Note2: The target is the thermal relay (TH-T18) used in the above magnetic starters.

(2)Main Circuit Surge Absorber Unit : UN-SA33

There's no change for the other UL recognized products since they have recognition mark (UR mark) already.

2. Points to be changed

Type	Changes	Before	After
MSOD-Q11 MSOD-Q12 MSOD-QR11 MSOD-QR12	Addition of UR mark on the side of the product (thermal relay part)		 UR mark
UN-SA33	Addition of UR mark to the label		 UR mark

3. Reason for the modification

The definition of UL component certification has been changed from "company name and type" to "company name, type and UR mark".

4.Exchangeability with old type

Exchangeable

5.Distinction of products

Appearance

6. Effective date

Immediately
