Change of CN1A and CN1B Connectors for MR-J2-Jr Series Servo Amplifiers

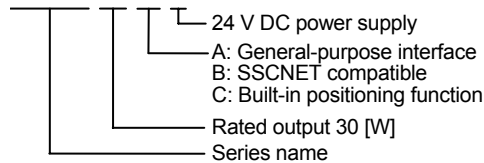

Thank you for your continued patronage of the Mitsubishi general-purpose AC servo and FA products. The CN1A and CN1B connectors for the general-purpose AC servo MR-J2-Jr series will be changed. We ask for your understanding in this matter.

1. Purpose

To improve the availability of the CN1A and CN1B connectors for the MR-J2-Jr series

2. Target Models

MR-J2-Jr series servo amplifiers: MR-J2-03 □ 5

3. Details of Change

(1) Change of CN1A and CN1B connectors

The conventional connectors manufactured by Molex Japan Co., Ltd. are changed to connectors manufactured by Sumitomo 3M Limited. Since the new connectors are compatible with the conventional connectors, the cables do not have to be replaced.

(2) Connector color change

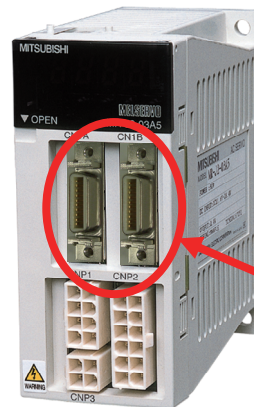

With the change shown in above (1), the colors of the connectors are changed.

(Conventional)

Color: Black

(New)

Color: Ivory

The change applies to this part.

4. Schedule

This change will be made sequentially from the June 2011 production.

Because of inventories, old and new connectors may exist in the distribution stage. We ask for your understanding in this matter.

This change will not affect the servo amplifier functions or performance.
