Addition of Manufacture Year and Month Indication to General-purpose AC Servo Amplifiers

Thank you for your continued patronage of the Mitsubishi general-purpose AC servo and FA products. This document provides information about an indication added to the rating plate on the side of a servo amplifier. This change does not affect the servo amplifier functions or performance. We ask for your understanding in this matter.

1. Purpose

To improve the visibility of the manufacture year and date indication on the general-purpose AC servo amplifiers

2. Target Models

All models of general-purpose AC servo amplifiers

3. Details of Change

The indication of the manufacture year and month is added to the rating plate.

The year and month of manufacture is added here.

Figure 1. Example of indication on MR-J3 series rating plate

4. Schedule

This change will be made sequentially from the August 2011 production.

Because of inventories, old and new rating plates may exist in the distribution stage. We ask for your understanding in this matter.
