

Sales and Service

Addition of Indications on the MR-J3W Series Front Panel

Thank you for your continued patronage of the Mitsubishi general-purpose AC servo and FA products. For the MR-J3W series 2-axis servo amplifier, to improve the workability of wiring, the signal names for the terminals of the main circuit connectors (CNP1, CNP2, CNP3A, and CNP3B) will be added. We ask for your understanding in this matter.

1. Target Models

MR-J3W-□B (□: 22/44/77/1010)

2. Schedule

This change will be made sequentially from April 2012 production.

Because of inventories, old and new products may exist in the distribution stage. We ask for your understanding in this matter.

3. Purpose

To improve the workability of wiring and to prevent improper wiring

4. Details of Change and Difference between Old and New Servo Amplifiers
