Change in Appearance of Ethernet Cable Connectors for AC Servo Amplifiers

Thank you for your continued patronage of the Mitsubishi Electric AC servo system. The appearance of Ethernet cable connectors will be changed as follows.

1. Target Model

MR-J5-G/MR-J5-G-N1

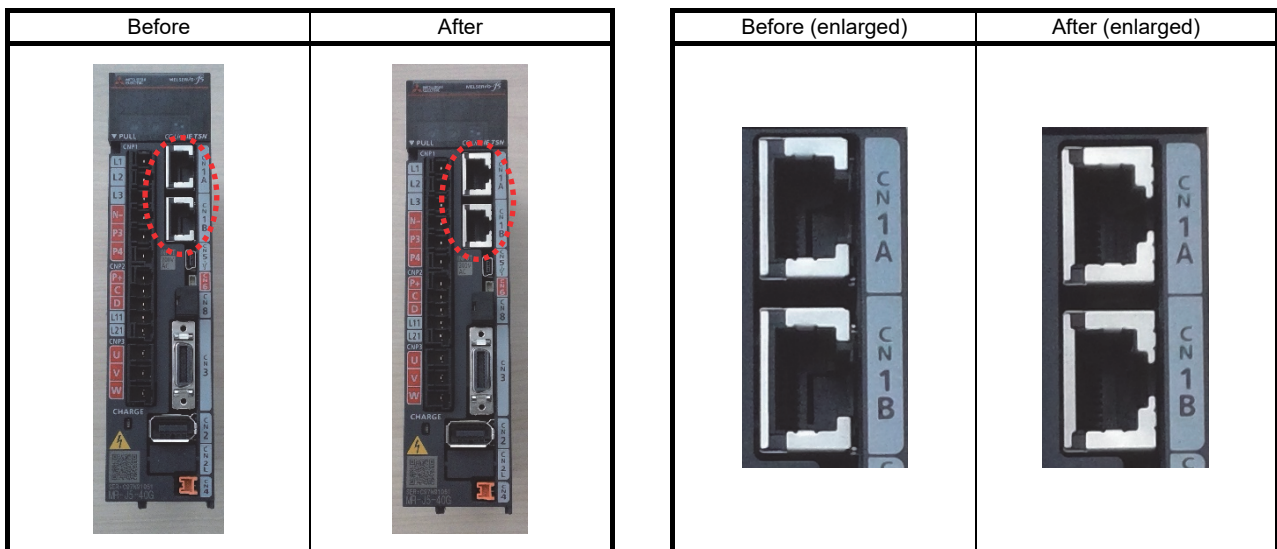

2. Reason for the Change

To improve the obtainability of the parts

3. Details of the Change

The shells of the Ethernet cable connectors (CN1A and CN1B) and their LED brightness will be changed.

This change does not affect the functions and performance of the products.

* The MR-J5-40G is shown in the photographs.

4. Schedule

This change will be made sequentially from the April 2022 production.

Note that, depending on the stock status, the products with both the former and new connectors may be distributed in the market around the same time.
