Change in Power Connectors for AC Servo Motors

Thank you for your continued patronage of the Mitsubishi Electric AC servo system. The power connectors for AC servo motors will be changed as follows. This change does not affect the functions and performance of the products.

1. Target Model

Rotary servo motor HG-JR series (6 to 12 kW: 1000 r/min, 7 to 15 kW: 1500 r/min)
Direct drive motor TM-RFM series (motor outer diameter: ϕ 230, ϕ 330)

2. Reason for the Change

To improve the obtainability of parts

3. Details of the Change

The details of the change are as shown in Figure 1. The power connectors after the change are the same as the ones used for the medium capacity series HG-SR/HG-JR, and the manufacturer remains the same.

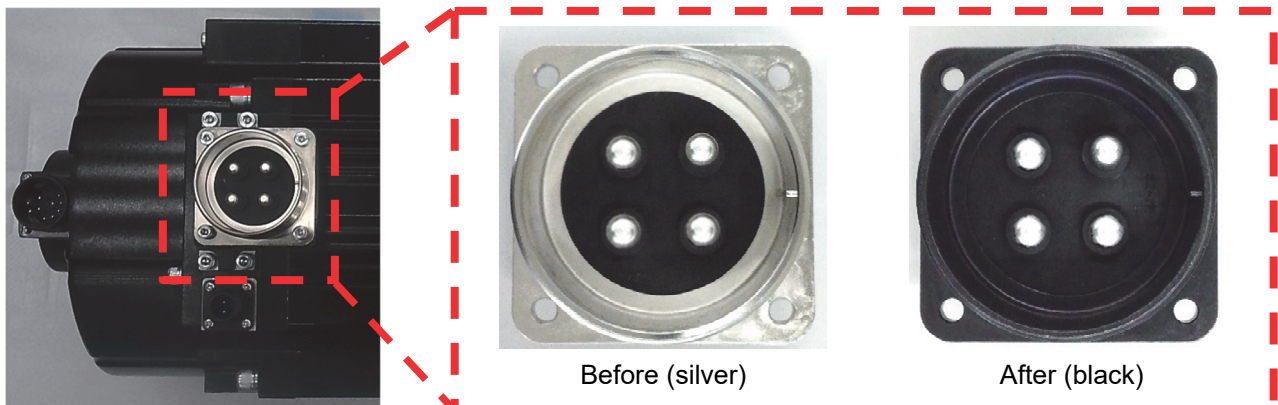

Figure 1. Appearance example

4. Schedule

This change will be made sequentially from the April 2022 production. Depending on the stock status, the schedule may be advanced or delayed, and the products with both the former and new connectors may be distributed in the market around the same time.
