Mitsubishi Electric AC Servo System

Sales and Service

No.22-15E

Addition of a New Supplier of Encoder Housings for AC Servo Motors

Thank you for your continued patronage of the Mitsubishi Electric AC servo system.

For AC servo motors, new encoder housings from a different supplier will be used in addition to the current encoder housings to improve the obtainability of the parts. The servo motors with different appearances will be distributed accordingly. This change does not affect the functions and performance of the products.

1. Target Model

Rotary servo motor HK-ST series

HK-RT series (3.5 to 7 kW)

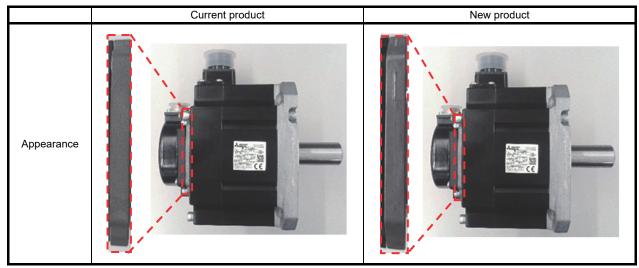

2. Reason for the Change

To improve the obtainability of the parts

3. Details of the Change

New encoder housings from a different supplier will be used.

The servo motors with different appearances (parting lines, gate traces, and luster) will be distributed accordingly.

4. Schedule

This change will be made sequentially from the January 2023 production, and the products with both the current and new encoder housings will be distributed.
