

## Sales and Service

### Change in the Indication on the Lead Wire of the AC Servo Motor

Thank you for your continued patronage of the Mitsubishi Electric AC servo system.  
The indication printed on the lead wire of the AC servo motor will be changed as follows with a change in the manufacturer's name.

#### 1. Target Model

HG-JR 1000 r/min series (15 to 37 kW)  
1500 r/min series (22 to 55 kW)

#### 2. Reason for the Change

A change in the name of the lead wire manufacturer

#### 3. Details of the Change

The indication printed on the surface of the lead wires for the power supply and thermistor inside the terminal box will be changed. This change will only apply to the indications and does not affect the functions and performance of the products.

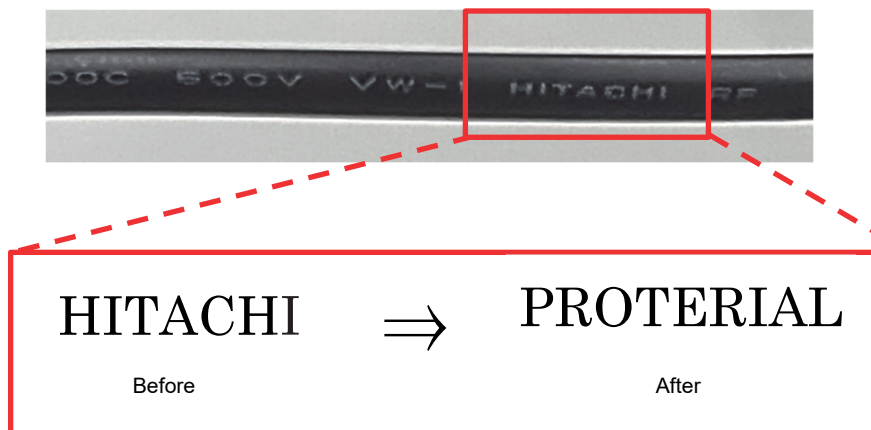

Figure 1. Appearance example

#### 4. Schedule

This change will be made sequentially from the January 2023 production. Depending on the stock status, the schedule may be advanced or delayed, and there may be cases where both the former and new products exist in the distribution stage.
