

## Sales and Service

### Change of the RS-422 Communication Connector of the A Series (Small-sized) Motion Controller

Thank you for your continued patronage of the Mitsubishi motion controllers and FA products. The RS-422 communication connector of the A series (small-sized) motion controller will be changed to improve the availability of the connector. This change will not affect the motion controller functions or performance. We ask for your understanding in this matter.

#### 1. Target Models

A series (small-sized) motion controllers  
 A171SHCPUN, A172SHCPUN, A173UHCPU, A173UHCPU-S1  
 Note. The special products related to the above products are included.

#### 2. Purpose

To improve the availability of the connector

#### 3. Details of Change

A part of the RS-422 communication connector, which is under the cover at the lower right on the controller front, is changed from resin to metal.

Item	Before change	After change
RS-422 communication connector	 <p data-bbox="486 1552 758 1581">Connector color: Black</p>	 <p data-bbox="1034 1552 1305 1581">Connector color: Silver</p>

#### 4. Schedule

This change will be made sequentially from the February 2012 production. Because of inventories, old and new connectors may exist in the distribution stage. We ask for your understanding in this matter.
