Modifications to the Case of the Simple Motion Module (RD77MS)

Thank you for your continued patronage of the Mitsubishi servo system controllers and FA products. We will make changes to the case of the Simple Motion module (RD77MS) as follows. We ask for your understanding in this matter.

1. Target Models and Schedule

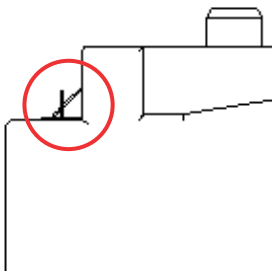

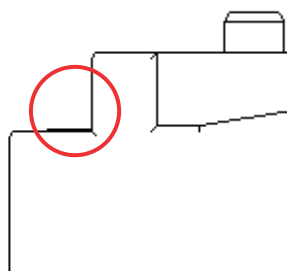

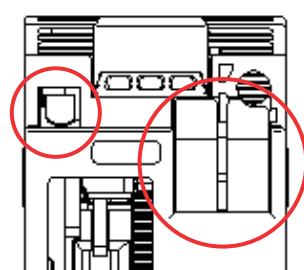

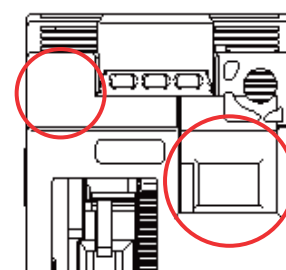

Product	Model	Schedule
Simple Motion module	RD77MS2/RD77MS2(C)	The change will be made sequentially from the June 2015 production.
	RD77MS4/RD77MS4(C)	
	RD77MS8/RD77MS8(C)	
	RD77MS16/RD77MS16(C)	

2. Reasons for Change

To improve productivity

3. Details of Change

The base unit contact plate in the upper part of the module is removed, and two openings in the upper part at the back of the case are closed as follows.

Item	Before change	After change
Base unit contact plate in the upper part of the case and openings in the upper part at the back of the case		
		

Note 1. The above modifications do not affect the functions or performance of the Simple Motion module.

2. The new or old module can be identified by the presence or absence of openings in the upper part at the back of the case.
