

## Sales and Service

### Change in Appearance of QD77MS4, QD77MS16, and Q173DSXY External Input Connection Connectors

Thank you for your continued patronage of the Mitsubishi Electric servo system controllers. The appearance of the QD77MS4, QD77MS16, and Q173DSXY external input connection connectors will be changed.

#### 1. Target Model

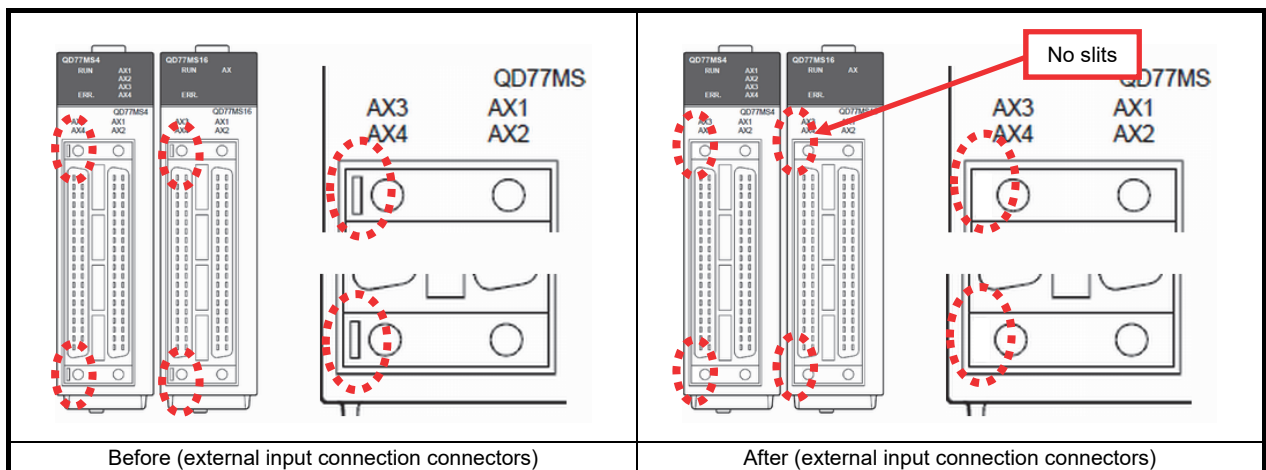

QD77MS4, QD77MS16, Q173DSXY, and their derived models

#### 2. Reason for the Change

To improve the obtainability of the parts

#### 3. Details of the Change

The external input connection connectors will have no slits on their upper and lower areas. Using the connectors with no slits does not affect the functions and performance of the products. The slits were made only for the convenience of the manufacturing process at the connector manufacturer.

#### 4. Schedule

This change will be made sequentially from the February 2020 production.

Note that, depending on the stock status, the products with both the former and new appearances may be distributed in the market around the same time.
