[Title] Notice of order deadline and production discontinuation of Hysteresis clutch•brake

[Date of Issue] July 2017 (Ver. B: April 2019)

[Relevant Models] Hysteresis clutch•brake

Thank you for your continued support of electromagnetic clutch and brake.

The hysteresis clutch/brake has been used over the years since its release. At this time, it is very difficult to obtain main parts used in production of hysteresis clutch/brake, and difficult to maintain the production system. In July 2017, the production discontinuation schedule for the applicable products below have been announced, but we will set the a new deadline for order acceptance.

We apologize for any inconveniences this may cause, and ask for your kind understanding.

1. Production discontinuation date

- Production of accepted orders: June 1, 2018
- Order deadline: Please refer to the following product list.
- Production discontinuation: June 30, 2019

*1. Please note that, depending on the status of the orders, we may not be able to accept the order even within the acceptance period.

3. Reason for production discontinuation

It is difficult to continue production as the main component magnet (semi-hard magnetic material) cannot be obtained. Also, since the magnet for certain products have depleted due to the recent increase in demand, order acceptance for some applicable products will be closed.

4. Repair acceptance

Repair acceptance period June 30, 2026 (For 7 years after production discontinuation)

Please note that we cannot accept requests for repair if replacement parts are no longer available even within the repair acceptance period.

5. Substitute model

None
