

[Issue No.]	FA-A-0244
[Title]	Removing the CE marking
[Date of Issue]	July 2017
[Relevant Models]	A1SJ71AP23Q, A1SJ71AR23Q, Q6KT-NETGW-SS, Q6KT-NETGW-RS, Q6KT-NETGW-RB

Thank you for your continued support of Mitsubishi Electric programmable controllers.

As of July 22, 2017, the revised RoHS Directive (2011/65/EU) is added to an item of EU directives that is used to determine whether or not a product is allowed to have the CE marking on it. Accordingly the CE marking is to be removed from a certain models of Mitsubishi Electric programmable controllers, MELSEC series products.

There is no impact on the general specifications, performance specifications, functions, and external dimensions of products due to the change.

1 Reason for the CE marking removal

To date, MELSEC series products of Mitsubishi Electric programmable controllers must be compliant with the EMC Directive (2014/30/EU) and the Low Voltage Directive (2006/95/EC), both of which are the EU directives, to have the CE marking on them. On July 22, 2017 and after, however, compliance with the revised RoHS Directive (2011/65/EU) also becomes mandatory. The products listed in "2 Relevant models" are not compliant with the revised RoHS Directive and the design change of these products for the compliance is also difficult. Accordingly, the CE marking is to be removed from these models.

2 Relevant models

The CE marking is to be removed from the models listed below.

Product name	Model
MELSECNET local station data link module	A1SJ71AP23Q
	A1SJ71AR23Q
MELSECNET(II), MELSECNET/10 gateway set	Q6KT-NETGW-SS ^{*1}
	Q6KT-NETGW-RS ^{*2}
	Q6KT-NETGW-RB ^{*3}

*1 The CE marking is to be removed only from A1SJ71AP21 though the Q6KT-NETGW-SS consists of A1S35B, A1S61PN, Q2ASCPU, A1SJ71AP21, and A1SJ71QLP21.

*2 The CE marking is to be removed only from A1SJ71AR21 though the Q6KT-NETGW-RS consists of A1S35B, A1S61PN, Q2ASCPU, A1SJ71AR21, and A1SJ71QLP21.

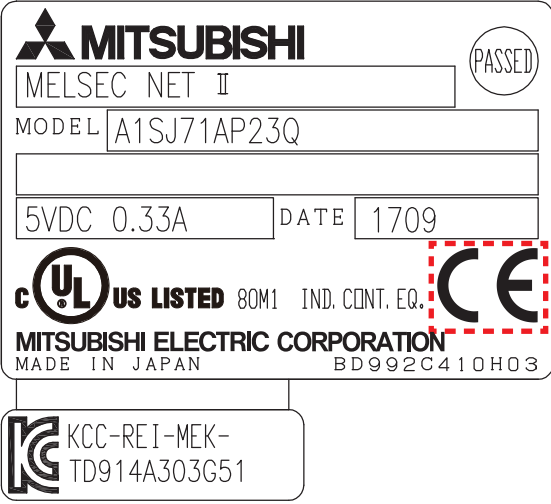

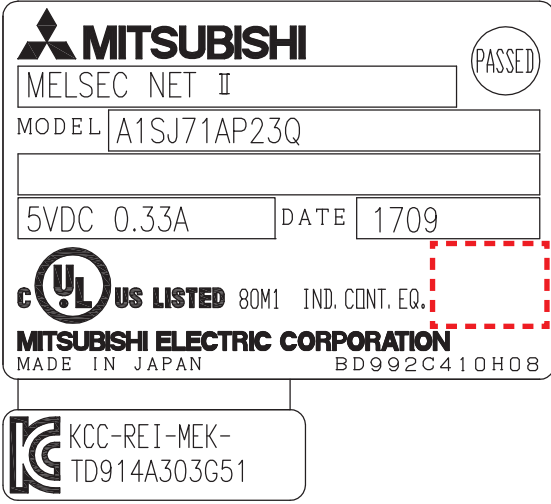

*3 The CE marking is to be removed only from A1SJ71AR21 though the Q6KT-NETGW-RB consists of A1S35B, A1S61PN, Q2ASCPU, A1SJ71AR21, and A1SJ71QBR11.

3 Details on the change

The CE marking is to be removed from rating plates and packaging labels.

Ex.

For the A1SJ71AP23Q

Before change	After change
<ul style="list-style-type: none"> Rating plate 	<ul style="list-style-type: none"> Rating plate 
<ul style="list-style-type: none"> Packaging label 	<ul style="list-style-type: none"> Packaging label 

4 Changeover period

The changes will take place one by one for each model manufactured on and after July 2017.

5 Precautions

On and after July 22, 2017, bringing the products listed in "2 Relevant models" in European countries is prohibited because they are not compliant with the revised RoHS Directive. Doing so is permitted only for repair and maintenance purpose, though.

In such a case, write down "Repair Parts for Programmable Controller" as product name when filling in the INVOICE to indicate that you will bring the product(s) in for repair and maintenance purpose.
