

Change of the External Appearance of CC-Link—AnyWireASLINK Bridge Module

■Date of Issue

December 2022

■Relevant Models

NZ2AW1C2AL

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC series.

The technical bulletin informs you that the external appearance of the CC-Link—AnyWireASLINK bridge module will be changed.

There is no impact on the general specifications, performance specifications, and functions of the modules due to the change.

1 RELEVANT MODEL

The following table lists the relevant model.

Product	Model
CC-Link—AnyWireASLINK bridge module	NZ2AW1C2AL

2 REASON FOR THE CHANGE

To improve the availability of related parts.

FA-A-0393-A

3 DETAILS ON THE CHANGE

The parts of the transmission points setting switches and operation mode setting switches are changed, thus the switch color is changed to white or orange as follows.

Before change	After change
<p>Transmission points setting switches, operation mode setting switches: Orange</p> 	<p>Transmission points setting switches, operation mode setting switches: Orange or white</p> 

4 CHANGEOVER PERIOD

The change is applied to the products manufactured in December 2022 and after.

Note that the external appearance of the module may be changed depending on the availability of parts in the future.

FA-A-0393-A
