[Title] Notification of Error Correction on Description   **[Date of Issue]** March '98
of A1FXCPU User's Manual

[Relevant Models] A1FXCPU

Thank you for your patronage toward the Mitsubishi general-purpose programmable controller MELSEC-A Series.

We would notify that there is an error on the description in the part list of A1FXCPU User's Manual (Set-Up version) IB-66839-B. The correction is made in a part list shown at right, below.

(Wrong)

Item	Quantity
A1FXCPU module	1
40-pin connector	1
Battery	1
Terminal register	1
Input/Output number label	1
Station number label for linking	1

(Correct)

Item	Quantity
A1FXCPU module	1
32-pin connector	1
Battery	1
Terminal register	1
Input/Output number label	1
Station number label for linking	1

To use the functions incorporated into the A1FXCPU, apply the 32-pin connector enclosed as an accessory. Note that the 40-pin connectors as listed below cannot be applied, however they have been listed in the manual:

- A6CON1 solder type 40-pin connector
- A6CON2 pressure-contact type 40-pin connector
- A6CON3 pressure-weld type 40-pin connector

Model Names of 32-Pin Connector (accessories enclosed)

Item	Model
32-pin connector (Fujitsu)	FCN-361J032-AU FCN-360C032-B (cover)
