MELFA Technical News

BFP-A6079-0057E

July 2012

Subject: Report of RT ToolBox2 version 2.14Q (simplified characters) release

Applicable to: F series, S Q q series, S D series, S series
(CR750/CRnQ-700/CRnD-700/CRn-500series robot controller)

Thank you for your continued support of Mitsubishi industrial robot "MELFA".
This Technical news describes the new version 2.14Q (simplified characters) of the RT ToolBox2. (3D-11C-WINC/3D-12C-WINC)

1. Language addition

The Chinese simplified characters version was added. The function is equal to a Japanese/English version.

[Attention] It is not a complete translation version. An additional function from Ver.1.5.1 writes English.

2. Function improvement

The communication cache initial value when Ethernet was connected was turned off (since Windows VISTA). Please update RT ToolBox2 to this version when you use before Ver.2.11M.

Please refer to technical news BFP-A6079-0052E for details.
