[Title] Setting function of MELSEC-Q series Energy Measuring Module / Insulation Monitoring Module using the remote I/O module through MELSECNET/H network.

[Date of Issue] September 2018

[Relevant Models] Energy Measuring Module (Model name : QE81WH, QE81WH4W, QE83WH4W, QE84WH)
 Insulation Monitoring Module (Model name : QE82LG)

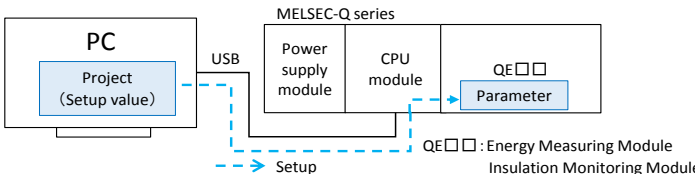

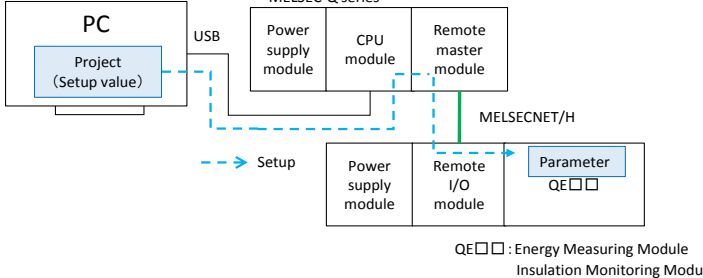

Thank you for your continued support of Mitsubishi programmable controllers, MELSEC Q series. We would like to inform that we will improve setting function of MELSEC-Q series Energy Measuring Module / Insulation Monitoring Module using the remote I/O module through MELSECNET/H network.

1. Relevant models

No.	Product name	Model
1	Energy Measuring Module	QE81WH, QE81WH4W, QE83WH4W, QE84WH
2	Insulation Monitoring Module	QE82LG

2. Description

We will support parameter setting using the remote I/O module through MELSECNET/H network. The following shows parameter settable network configuration.

Network Configuration		Before	After
1	<p>【Setup using the CPU module】</p>  <p>ME□□□ : Energy Measuring Module Insulation Monitoring Modul</p>	Supported	Supported
2	<p>【Setup using the remote I/O module through MELSECNET/H network】</p>  <p>ME□□□ : Energy Measuring Module Insulation Monitoring Modul</p>	Unsupported	Supported

3. Start timing
From October 2018.

4. Distinction point for the change

Before	After
