Change of Brightness of the Print Characters on the MELSEC-Q Series Large Type Input Modules

■Date of Issue

September 2021

■Relevant Models

QX11L and QX21L

Thank you for your continued support of Mitsubishi Electric programmable controllers, MELSEC-Q series.

We are informing you that the brightness of the characters printed on the front face of large type input modules are to be changed.

There is no impact on the general specifications, performance specifications, functions, and external dimensions of modules due to the change.

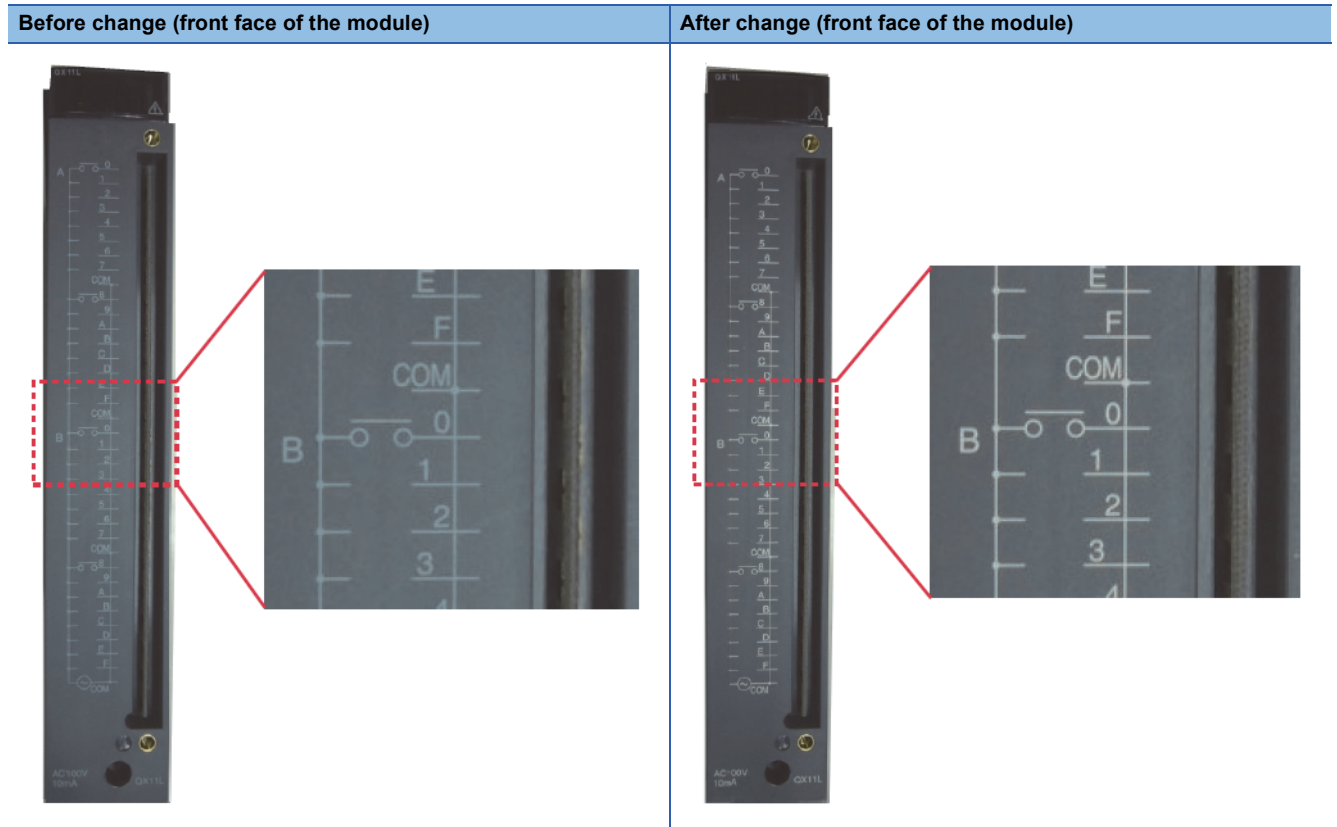

1 REASON FOR THE CHANGE

To improve visibility of the print characters.

FA-A-0345-A

2 DETAILS ON THE CHANGE

The characters on the front face of the module are to be printed with a brighter color.

3 DATE OF CHANGE

The change applies to the products manufactured in and after September 2021.

Note that both the old and new products may be distributed in the market around that time.
