

Change in the Accessories of Repeater Units for the MELSECNET/10 Coaxial Bus System

■Date of Issue

October 2021

■Relevant Models

A6BR10 and A6BR10-DC

Thank you for your continued support of Mitsubishi Electric programmable controllers.

We are informing you that the accessories of repeater units for the MELSECNET/10 coaxial bus system are changed to reduce environmental burden by reducing plastics as part of resource conservation activities (ISO 14001).

There is no impact on the product functions and performance due to this change.

1 DETAILS ON THE CHANGE

The caps for two T-type connectors will be abolished, and the external appearance of the connector will be changed as follows.

Description	Before change	After change
Abolition of the caps for the T-type connector		

2 DATE OF CHANGE

The change applies to products manufactured in and after October 2021.

Note that, depending on stock status, both the products before and after change may be distributed in the market around that time.
