

Sales and Service

Compliance of Servo System Controller with the WEEE Directive

Thank you for your continued patronage of the Mitsubishi Electric AC servo system. For a sustainable society, the symbol of the crossed-out wheeled bin will be added to the products. This symbol indicates that the product should not be discarded as unsorted waste but must be sent to separate collection facilities for recovery and recycling to reduce the amount of waste electrical and electronic equipment according to the Directive on Waste Electrical and Electronic Equipment (WEEE *1). This change does not affect the functions and performance of the products.

1. Target Model

All models of servo system controllers

2. Details of the Change

The symbol of the crossed-out wheeled bin (Figure 1) will be added to the products. When the symbol cannot be added to the products, an A6 paper (Figure 3) explaining the symbol will be included in the package.
