

MODELS: The inverter setup software "FR Configurator2"

TITLE: Measures for vulnerabilities of FR Configurator2

We have taken measures in response to the security vulnerabilities that were identified in the inverter setup software "FR Configurator2". A software upgrade will be provided free of charge. Please contact a local Mitsubishi Electric representative.

1. Identified vulnerabilities

(1) When reading a tampered malicious project file (a file with saved information such as inverter models, parameter setting values) with FR Configurator2, the information in the computer executing FR Configurator2 may be stolen.

(2) When reading a tampered malicious project file on FR Configurator2, FR Configurator2 may hang.

2. Measures

Download the "FR Configurator2" updated version from "Drive Products Inverters-FREQROL Download" and install it.
