

INVERTER

New Product RELEASE

No.16-8E

Release of the FR-A8NL plug-in option for LonWorks® communication

For the FR-F800 series inverter, the plug-in option FR-A8NL is now available.

Features

Easy construction of the network system

The FR-A8NL enables autonomous control of the inverter, allowing construction of the network system without using a master controller.

Enhanced monitoring function

The FR-A8NL enables centralized monitoring of various items such as output frequency, cumulative power, or actual operation time of the inverter.

Compatible inverters (FR-F800 series)

The FR-A8NL can be used with the inverter models which have the following SERIAL number or later. Check the SERIAL number indicated on the inverter rating plate for the manufactured year and month.

Country of origin indication	SERIAL number	Year and month of manufacture
MADE in Japan	☐ 6 Y ○○○○○ or later	November 2016 or later
MADE in China	☐ 6 Z ○○○○○ or later	December 2016 or later

[Rating plate example]

The SERIAL consists of one symbol, two month, and six characters indicating the control

> The last digit of the production year is indicated Control number as the Year, and the Month is indicated by 1 to 9, X (October), Y (November), or Z (December).

LonWorks is a registered trademark of Echelon Corporation in the U.S.A and other countries.
