Appearance Change for Inverter Plug-in Option FR-A7NC (E kit)

Thank you for your continued patronage of Mitsubishi Electric drive control products. The appearance of the FR-A7NC (E kit) plug-in option will be changed.

1. Products Affected

FR-A7NC

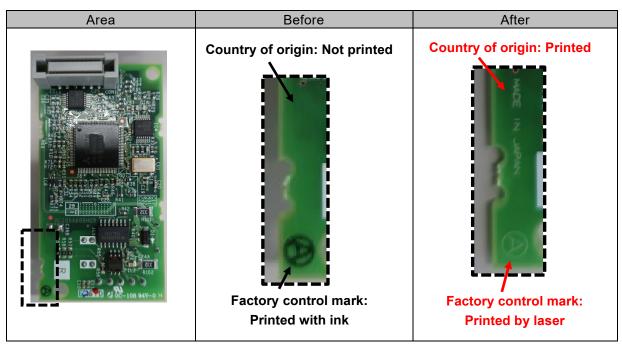

FR-A7NC E kit

* Coated models (-60) are included.

2. Details of Change

The appearance of the products will be changed as follows.

The change does not affect the quality, performance, or specifications of the products.

3. Date of Change

The change will be applied to the products manufactured in October 2023 or later.

Title

4. Product Identification

The SERIAL (determined by date of production) can be checked on the circuit board or packaging plate of the plug-in option.

 $\begin{array}{cccc} \text{SERIAL example on circuit board} \\ \underline{\square} & \underline{3} & \underline{X} & \underline{\circ \circ \circ} \\ \underline{\text{Symbol Year Month Control number}} \end{array}$

 $\begin{array}{ccc} \text{SERIAL example on packaging plate} \\ \underline{\square} & \underline{3} & \underline{X} & \underline{\circ \circ \circ} \\ \underline{\text{Symbol Year Month Control number}} \end{array}$

SERIAL

SERIAL

The SERIAL consists of one symbol, two characters indicating the production year and month, and three characters indicating the control number.

The last digit of the production year is indicated as the Year, and the Month is indicated by 1 to 9, X (October), Y (November), or Z (December).
