

### Change of the UL Certification Mark for the General-Purpose Inverter Option FR-BR Series

Thank you for your continued patronage of Mitsubishi Electric drive control products.

For the general-purpose inverter option FR-BR series, the UL certification mark design will be changed. This is just a design change, and the certified standards do not change. The products meet the UL standards regardless of this change. Along with this change, the layout of the markings (positions of the markings) in the rating plate of the product will be changed.

**1. Products Affected**

FR-BR-15K to 55K  
FR-BR-H15K to H55K

**2. Details of Change**

The UL certification mark on the rating plate of the product will be changed as shown in the following table.

The change does not affect the quality, performance, or specifications of the product.

(Example) Rating plate of the FR-BR-15K

Before	After

**3. Date of Change**

The change will be sequentially applied to products manufactured in April 2025 or later.

**4. Product Identification**

The change can be identified visually.
