Sales and Service

No. 829E

Discontinuation of the FR-A7NL and FR-A8NL General-Purpose Inverter Plug-in Options

Thank you for your continued patronage of Mitsubishi Electric drive control products. Production of the highly valued LONWORKS communication options FR-A7NL and FR-A8NL will be discontinued according to the following schedule due to discontinuation of supply and support for the parts used in the products. We ask for your understanding in this matter.

1. Models to be Discontinued

General-purpose inverter plug-in options for the LONWORKS communication function (two models)
FR-A7NL
FR-A8NL

2. Schedule

Production will continue on orders received by the last day of September 2026.
Made-to-order production starts on March 1, 2026 in advance of the discontinuation.
Requests for repairs and service will be accepted until the last day of September 2033.

Note) Repairs are subject to the supply of service parts and may not be possible even within the above repair service period.

3. Successor models

No successor models are available.
