Shape Change of MR-J3-500□ Servo Amplifier Cover

Thank you for your continued patronage of the Mitsubishi general-purpose AC servo and FA products. To increase productivity, the shape of the MR-J3-500□ servo amplifier cover will partly be changed. We ask for your understanding in this matter.

1. Target Models

MR-J3 series servo amplifiers: MR-J3-500□ (□: A, B, T, or BS)

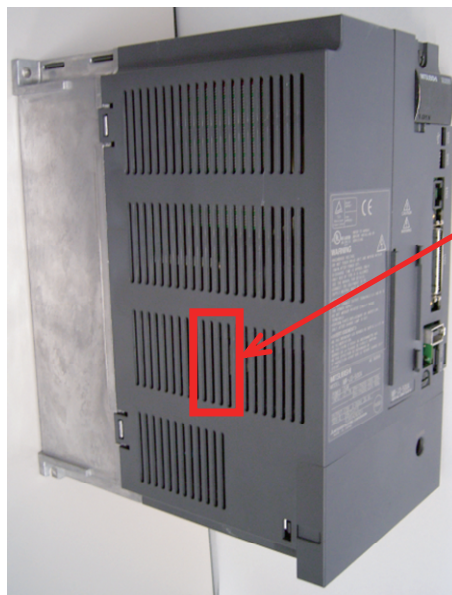

2. Purpose

To standardize the servo amplifier cover shape according to the other Mitsubishi products. Since the resin cover production facility was changed, the cover shape requires to be standardized.

3. Details of Change

(1) Change to slits on the side of the resin cover

To standardize the resin cover according to the other Mitsubishi products, some slits will be filled and the filled area will be recessed.

These slits will be filled and the filled area will be recessed. This change will not affect the external dimensions.

This change will not affect the external dimensions.

This change also will not affect the servo amplifier functions or performance.

4. Schedule

This change will be made sequentially from the August 2011 production.

Because of inventories, old and new servo amplifiers may exist in the distribution stage. We ask for your understanding in this matter.
