Notice of Change to the Certified Standards Plate for the MR-C-UE Series

Thank you for your continued patronage of the Mitsubishi general-purpose AC servo and FA products. The certified standards plate of the MR-C-UE series (EN and UL/C-UL Standards) is changed. Although the TÜV certification mark is deleted, the CE and UL/C-UL marks are the same as before. Therefore, this change does not have any impact on export (clearance from customs). Please check the following contents, and we ask for your understanding in this matter.

1. Target Models

MR-C-□-UE (EN and UL/C-UL standards compliant)

2. Schedule

This change will be applied to the products, which will be manufactured and shipped in April 2013 or later.

Because of inventories, old and new products may exist in the distribution stage. We ask for your understanding in this matter.

3. Details of Change

Because of discontinuation of production

4. External Appearance Change and Difference between Old and New Plate

5. Other

The production of the MR-C-□-UE series will be discontinued in April 2013 and the spare parts will be supplied until March 2014. For the alternative products, refer to the MITSUBISHI ELECTRIC FA Global Website.
