

Sales and Service

General-Purpose AC Servo Amplifiers Are Awarded the EAC Mark of the Eurasian Customs Union

Thank you for your continued patronage of the Mitsubishi general-purpose AC servo and FA products. MR-J4, MR-J3, MR-JN, and MR-JE series AC servo amplifiers now comply with the Eurasian Conformity (EAC) requirements of the Customs Union (Russia, Belarus and Kazakhstan). The EAC mark will be shown on the servo amplifiers and their packaging labels. This change does not affect the functions and performance of the product. We ask for your understanding in this matter.

1. Target Models

MR-J4, MR-J3, MR-JN, and MR-JE series AC servo amplifiers

2. Details of the Change

The EAC mark will be shown on the servo amplifiers and their packaging labels.

This mark is generally located near the rating plate on the servo amplifier, but the location slightly differs depending on the models.

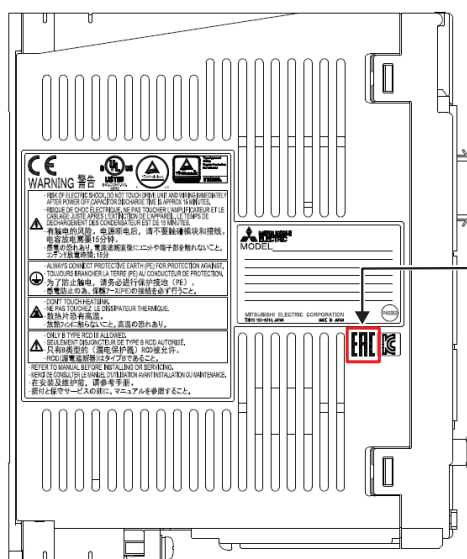

Figure 1. Print example (MR-J4-10A)

Figure 2. Print example of the packaging label (MR-J4-10A)

3. Schedule

This change will be made sequentially from the October 2015 production.

There may be cases where both old and new products exist in the distribution stage.
