

AC Servo Sales and Service

Addition of New Encoder Connectors for AC Servo Motors

Thank you for your continued patronage of the Mitsubishi Electric general-purpose AC servo. For AC servo motors, new encoder connectors will be used in addition to the connectors currently used. Note that the logos are different between the two connectors. This change does not affect the functions and performance of the product. We ask for your understanding in this matter.

1. Target Model

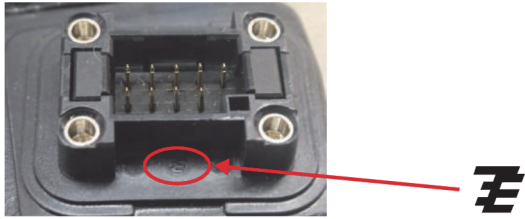

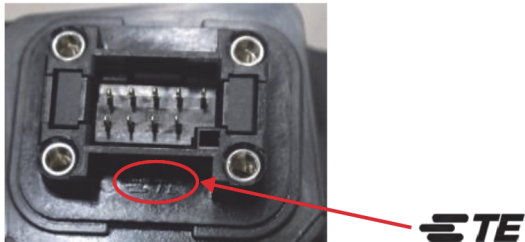

HG-KR/MR/KN series and HF-KN/KP/MP series

2. Purpose

To improve the obtainability of encoder connectors

3. Details of the Addition

To improve the obtainability of encoder connectors, the new encoder connectors produced at a different site of the same connector manufacturer will be used in addition to the current encoder connectors. The appearance of the current and new encoder connectors is shown as follows.

		Logo	Production site
 <p data-bbox="268 1346 475 1368">Appearance example</p>	<p data-bbox="587 1055 683 1128">Current encoder connector</p>		<p data-bbox="1315 1077 1422 1106">Factory (1)</p>
	<p data-bbox="587 1323 683 1397">New encoder connector</p>		<p data-bbox="1315 1346 1422 1375">Factory (2)</p>

4. Schedule

The new encoder connectors will be used sequentially from the October 2017 production.

<p data-bbox="197 1977 256 2051">Date of issue</p>	<p data-bbox="312 1989 360 2033">June 2017</p>	<p data-bbox="411 2000 459 2022">Title</p>	<p data-bbox="496 1989 884 2033">Addition of New Encoder Connectors for AC Servo Motors</p>	<p data-bbox="919 1977 1449 2051">Mitsubishi Electric Corp., Nagoya Works 1-14, Yada-minami 5-chome, Higashi-ku, Nagoya 461-8670 Tel.: +81 (52) 721-2111 Main line</p>
