

AC Servo Sales and Service

Change in Appearance of Lock Part of Power Connector for General-Purpose AC Servo Amplifier

Thank you for your continued patronage of the Mitsubishi Electric general-purpose AC servo. Appearance of the lock part of the servo amplifier power connector will be changed as follows. This change does not affect the functions and performance of the products.

1. Target Model

MR-J4-03A6, MR-J4-03A6-RJ, and MR-J4W2-0303B6

2. Details of the Change

The appearance of the lock part of the servo amplifier power connector (for CNP1) will be changed to optimize the manufacturing process at the connector manufacturer.

This change does not affect the methods for mounting and dismounting the connector.

Table 1. Change in appearance of servo amplifier power connector

	Before	After
Servo amplifier power connector (Standard accessory) The connectors for MR-J4-03A6(-RJ) are shown in the photographs.		

3. Schedule

This change will be made sequentially from the February 2020 production.

Note that, depending on the stock status, the products with both the former and new lock parts may be distributed in the market around the same time.
