

Change of Connector Protection Tape for AC Servo Motors

Thank you for your continued patronage of the Mitsubishi Electric AC servo system.
The connector protection tape used in the process of packaging AC servo motors will be changed as follows to improve productivity.

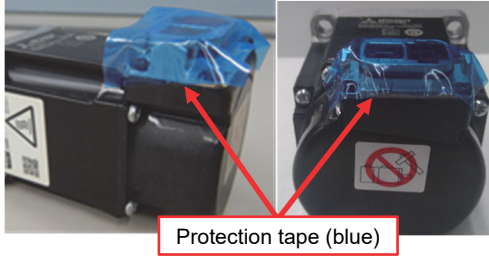

1. Target Model

HK-KT series, HK-RT series (1.0 to 2.0 kW)

2. Details of the Change

To improve productivity (efficiency in the tape attaching process), the connector protection tape used in the process of packaging AC servo motors will be changed.

* This change does not affect the functions and performance of the products.

Details of the change	Before change	After change
Appearance	 <p>Protection tape (blue)</p>	 <p>Protection tape (clear)</p>

3. Schedule

This change will be made sequentially from the June 2021 production. Depending on the stock status, the schedule may be advanced or delayed, and the products with both the former and new tape may be distributed in the market around the same time.
