Connector Cap Change of Direct Drive Motors

Thank you for your continued patronage of the Mitsubishi Electric AC servo system. The connector cap of the direct drive motors will be changed as follows.

1. Target Model

Direct drive motors TM-RFM series, TM-RG2M series, and TM-RU2M series

2. Reason for the Change

Production discontinuation by the connector manufacturer

3. Details of the Change

The connector cap will be changed. Figure 1 shows the appearance of a direct drive motor, and the appearance varies depending on the model. This change does not affect the functions and performance of the products.

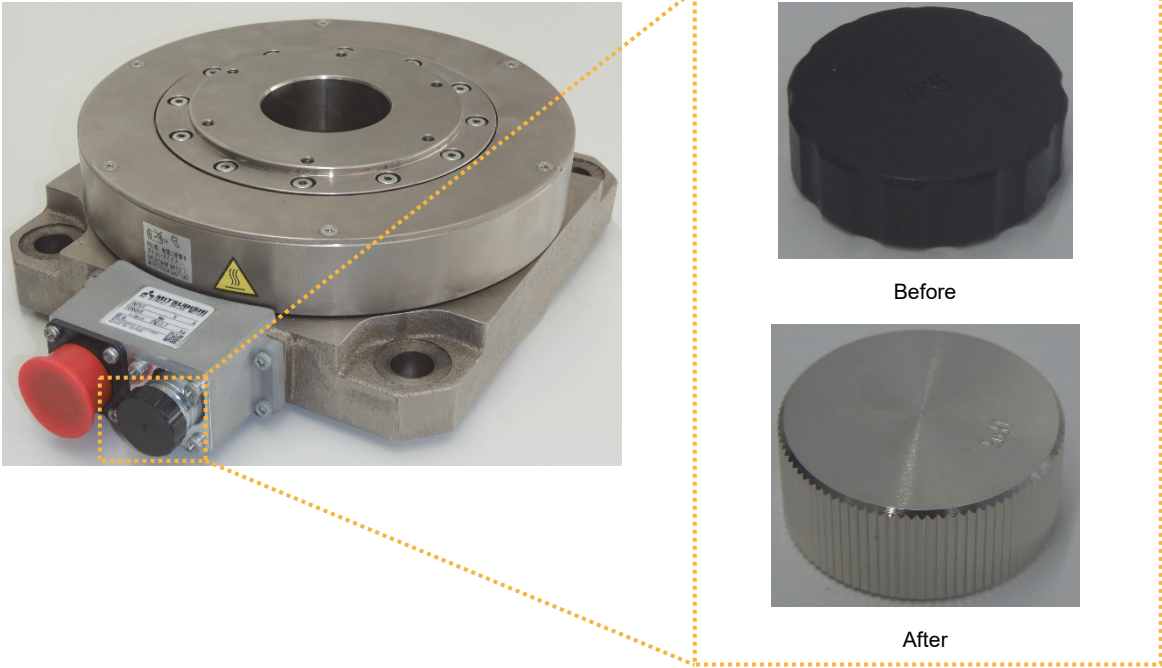

Figure 1. Appearance example

4. Schedule

This change will be made sequentially from the April 2023 production. Depending on the stock status, the schedule may be advanced or delayed, There may be cases where both the former and new products exist in the distribution stage.
