

## Sales and Service

### Notice of Addition of Serial Number to Q Series Motion Module and Positioning Module

Thank you for your continued patronage of the Mitsubishi motion controllers. For the Mitsubishi motion controller Q series, serial number will be displayed on the front of the motion module and positioning module for easy checking of their serial numbers.

#### Whereas

#### 1. Target Models and Change Schedule

##### (1) Models scheduled for production switch-over

For the models listed in Table 1, shape change and serial number printing will be made sequentially from the beginning of April 2008 production.

Table 1. List of Target Models

Model	Model name	Change schedule
Motion module	Q172LX	From the beginning of April 2008 production, shape change and serial number printing will be made sequentially.
	Q172EX, Q172EX-S1, Q172EX-S2, Q172EX-S3	
	Q173PX, Q173PX-S1	
	Q172DLX	
	Q172DEX	
Positioning module	Q173DPX	
	QD75M1, QD75M2, QD75M4 QD75MH1, QD75MH2, QD75MH4	

\*1: Shape-changed parts may be used for repairing.

\*2: For special products based on the above listed modules, shape change and serial number printing will be also made sequentially.

##### (2) Models completed production switch-over

For the models listed in Table 2, shape change and serial number printing have been completed. (Notified by the Sales and Service No.07-16 issued in September 2007.)

Table 2. List of Production Switch-Over Completed Models

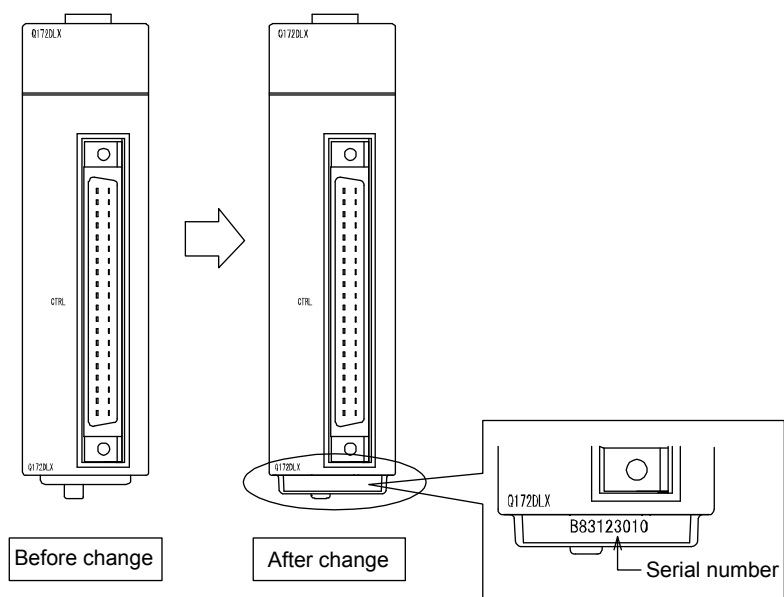

Model	Model name	Change schedule
SSCNET compatible CPU module	Q173CPUN	From the beginning of October 2007 production, shape change and serial number printing have been made and production switch-over is completed.
	Q172CPUN	
	Q173CPUN-T	
	Q172CPUN-T	
SSCNET III compatible CPU module	Q173HCPU	
	Q172HCPU	
	Q173HCPU-T	
	Q172HCPU-T	
iQ Platform compatible CPU module	Q173DCPU	
	Q172DCPU	

<b>Date of issue</b>	March 2008	<b>Title</b>	Notice of Addition of Serial Number to Q Series Motion Module and Positioning Module	Mitsubishi Electric Corp., Nagoya Works 5-1-14 Yada-minami, Higashi-ku, Nagoya 461-8670 Tel.: +81 (52) 721-2111 Main line

## 2. Display of Serial Number on the Front of Module

### (1) Change details

Serial number printed on the side (rating plate) of the motion module and positioning module will be displayed on the front of the module. Serial number can be checked without dismounting the module.

### (2) External dimensions

Shape of the module is changed because of addition of the serial number.
