## Sales and Service

No. 09-05E

### Manual Integration and Package Size Change for QD75M/QD75MH Positioning Modules

Thank you for your continued patronage of the Mitsubishi motion controllers. The included manuals and the package size for the QD75M/QD75MH positioning modules will be changed as indicated below. We ask for your understanding in this matter.

#### Whereas

#### 1. Purpose

To improve convenience by integrating the manuals for the positioning modules (QD75/QD75MH)

#### 2. Target Model

The included manuals and the package size for the following models will be changed.

- 1) SSCNET compatible positioning module: QD75M1, QD75M2, QD75M4
- 2) SSCNETIII compatible positioning module: QD75MH1, QD75MH2, QD75MH4

#### 3. Details of Changes

- (1) Included manual

Old		New	
Included manual	No.	Included manual	No.
QD75M1/QD75M2/QD75M4 User's Manual (Hardware)	IB-0300031	SSCNET (III) Compatible Positioning Module User's Manual (Hardware)	IB-0300145
QD75MH1/QD75MH2/QD75MH4 User's Manual (Hardware)	IB-0300099		

- (2) Package size

Old	New
 14cm × 12cm × 5cm	 11cm × 15cm × 6cm

\* The positioning module size will not be changed.

\* New products and old products can be distinguished by the package size.

#### 4. Schedule

These changes will be made sequentially from April 2009 production.

(Note) Both the new and old packages might exist in the distribution stage.
