Shielding Plate Specification Change for Motion Controllers

Thank you for your continued patronage of the Mitsubishi motion controllers and FA products. The specifications of the shielding plate of the motion CPU module will be changed as shown below. We ask for your understanding in this matter.

1. Target Models and Schedule

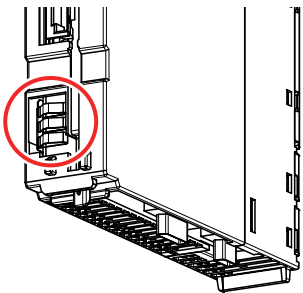

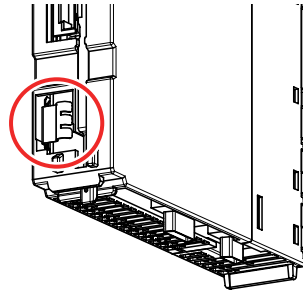

Model	Model name	Schedule
Motion CPU module	Q173CPUN	This change will be made sequentially from January 2010 production.
	Q172CPUN	
	Q173CPUN-T	
	Q172CPUN-T	

*The change will be also made sequentially for the special models that are based on the above modules.

2. Purpose

To improve the productivity

3. Details of Change

Item	Before	After
FG spring area of the shielding plate		
		

*The above change will not affect the function and performance of the motion CPU modules.

*Changed and unchanged products can be identified by the shapes of the FG spring area of the shielding plate.
