Change in Storage Media of OS Software for Q Series Motion Controllers

Thank you for your continued patronage of the Mitsubishi motion controllers and FA products. Among OS software for the Q series motion controllers, software available on floppy disks will be available on CDs.

We ask for your understanding in this matter.

1. Target Model

The OS software and the special software for the motion controllers Q173CPUN, Q172CPUN, Q173HCPU, and Q172HCPU will be available on CDs.

This change will not affect the model name.

This change also will not require any changes for MT Developer and MELSOFT MT Works2.

2. Manuals

The printed manuals for the OS software are included with the software products.

With the storage media change, the PDF manuals will be stored in the CDs instead for resource saving.

3. Schedule

This change will be made sequentially from the December 2010 production. Because of inventories, old and new products may exist in the distribution stage. We ask for your understanding in this matter.
