Change in Form of Manual Included with QD75M/QD75MH/QD74MH Positioning Modules

Thank you for your continued patronage of the Mitsubishi motion controllers and FA products. The form of the manual included with the QD75M/QD75MH/QD74MH positioning modules will be changed from an A6 booklet to a sheet of A4 paper. We ask for your understanding in this matter.

1. Reasons for Change

To reduce the amount of paper use as part of resource saving efforts (ISO14001).

2. Target Models

The form of the manual included with the following models will be changed.

- (1) SSCNET compatible positioning module: QD75M1, QD75M2, QD75M4
- (2) SSCNETIII compatible positioning module: QD75MH1, QD75MH2, QD75MH4
- (3) SSCNETIII compatible high-speed, multi-axis positioning module: QD74MH8, QD74MH16

3. Details of Change

The number of pages in the included manual will be downsized so that the contents in the manual do not overlap those in the user's manuals (details), which are sold separately.

With the change, the manual number will also be changed.

Before change		After change	
Included manual	Number	Included manual	Number
SSCNET(III) Compatible Positioning Module User's Manual (Hardware)	IB-0300145	QD75M1/QD75M2/QD75M4 Before Using the Product	BCN-B62008-269
		QD75MH1/QD75MH2/QD75MH4 Before Using the Product	BCN-B62008-270
		QD74MH8/QD74MH16 Before Using the Product	BCN-B62008-271

Note. These changes do not affect the specifications, the functions, and the appearances of the positioning modules.

The contents deleted from the conventional included manual are available with the user's manuals (details) sold separately.

The latest PDF user's manuals are available from the MELFANSweb website.

(To obtain the PDF manuals, the member registration of the FA-LAND (free) is required.)

MELFANSweb website:

<http://www.MitsubishiElectric.co.jp/melfansweb>

In regions other than Japan, contact your local Mitsubishi representative.

4. Schedule

These changes will be made sequentially from the December 2010 production.

Because of inventories, old and new manuals may exist in the distribution stage.

We ask for your understanding in this matter.

Date of issue		Title
