Production Discontinuation of Integrated Start-up Support Software MT Developer for Q Series Motion Controller

Thank you for your continued patronage of Mitsubishi motion controller and FA products. We have been manufacturing the integrated start-up support software MT Developer for Q series motion controller for a long time. However, the production of the software will be discontinued according to the schedule below. We ask for your understanding in this matter.

1. Production Discontinuation

Closing date for order acceptance: The last day of September 2014

2. Production Discontinuation Models

The production will be discontinued for all models of the integrated start-up support software MT Developer for Q series motion controller (including the special models).

Table 1 shows the details of the production discontinuation target models

3. Reason for Production Discontinuation

Microsoft Windows XP support will end in April 2014. Since support for all Windows OSs compatible with MT Developer will end, we will discontinue products.

4. Difference with the Replacement Software (MT Works2)

The following shows the difference between MT Developer and MT Works2.

There are some differences, but MT Works2 has backward compatibility to replace MT Developer.
