Enlarged Display of Rating Plate for Positioning Module and Simple Motion Module of MELSEC-Q Series

Thank you for your continued patronage of Mitsubishi motion controller and FA products. We will change the rating plate display on the case of the positioning module and simple motion module of the MELSEC-Q series.

This change does not affect the contents of the rating plate, functions and performance of the module.

1. Target Models

Product name	Model
Positioning module compatible with SSCNET III	QD75MH1, QD75MH2, QD75MH4
Simple motion module compatible with SSCNET III/H	QD77MS2, QD77MS4, QD77MS16

2. Details of the Change

To improve visualization of the rating plate, the rating plate display will be enlarged. As an example, the following shows the change for QD77MS4.

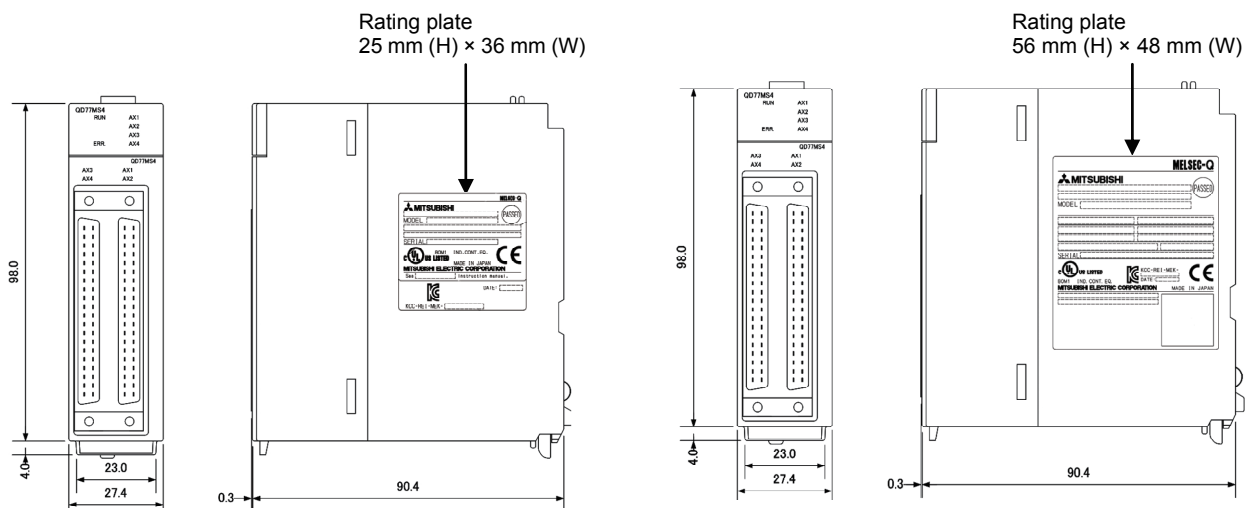

Figure 2.1 Before change

Figure 2.2 After change

3. Schedule

This change will be made sequentially from the October 2013 production.

There may be cases when both new and old products exist in the distribution stage. We ask for your understanding in this matter.

Date of issue	Title	Content
September 2013	Enlarged Display of Rating Plate for Positioning Module and Simple Motion Module of MELSEC-Q Series	Mitsubishi Electric Corp., Nagoya Works 5-1-14 Yada-minami, Higashi-ku, Nagoya 461-8670 Tel.: +81 (52) 721-2111 Main line
