[Title] Operation check results of third party CF cards on GOT1000 Series units

[Date of Issue] November 2009

[Relevant Models] GOT1000 Series

Thank you for your continued support of Mitsubishi Graphic Operation Terminal (GOT).

The following information shows the results of operation check that was conducted by inserting third party CF cards into the GOT1000 series main unit or optional units. Please note that the results do not guarantee the operation of the CF cards manufactured by third party companies on the GOT1000 series units.

The information in this technical bulletin is provided to the customers to select and use an appropriate CF card; however, the CF card should be selected and used at the customers' own risks.

If you need the CF card guaranteed by Mitsubishi Electric Corporation, select one from the CF cards manufactured by our company that are listed in the GOT1000 series catalog.
